Teaching

I teach courses in educational data science, STEM education, and research methods at the University of Tennessee, Knoxville. Many of my classes are hands-on: students spend much of their time working with real data, often in R.

Courses

Courses I teach (or have taught) at the University of Tennessee, Knoxville:

- *Foundations of Educational Data Science I* (STEM 680)
- *Foundations of Educational Data Science II* (STEM 685)
- *Visualizing Data Using R* (STEM 691)
- *Capstone in Educational Data Science* (STEM 695)
- *STEM Education Seminar* (STEM 612)
- *Nature of Mathematics and Science Education* (SCED 572)
- *Teaching Science in Grades 7-12* (TPTE 495, SCED 496, & SCED 543)
- *VolsTeach Step 1 and Step 2* (TPTE 110 & TPTE 120)

Several of these courses are part of the Educational Data Science Graduate Certificate, a fully online program at the University of Tennessee, Knoxville.

Mentoring & Graduate Study

I advise graduate students in STEM Education and work with students through the Making Data Science Count research group. If you're thinking about graduate study in educational data science, data science education, or STEM education, please email me — I'm happy to talk.
